

GPS tracking & alerting devices

**High Tech GPS trackers at fair prices.
Pay As You Go - no monthly bills.
Ideal for monitoring vulnerable people.**

If worn, our GPS trackers:

- will locate Wearer at any time.**
- will send alerts if Wearer leaves a place.**
- will send alerts if it is turned off**
- will send alerts if Wearer presses its panic button.**

Location beacon

The tracker sends out position reports, when moving, at set time intervals set by the user. These can be viewed as a trail on a web-page map moments later using one of our 5 user interfaces/apps.

Zone alerts

Can be set to send SMS alerts if it leaves particular places.

Panic/SOS alerts

Pressing its SOS panic button triggers alert messages in seconds. Alert messages (email or SMS) contain a Google map link.

- 9 USPs:**
- 1. Our products, prices and value are unequalled;**
 - 2. Our trackers work straight from their boxes;**
 - 3. Have an international SIM installed;**
 - 4. We provide a free iPhone (iOS) and an Android app;**
 - 5. Works on any device with an internet connection;**
 - 6. We give Phone & Email support;**
 - 7. We offer tracker rental for short term use;**
 - 8. We buy back trackers, when no longer required;**
 - 9. We give new customers free initial training online.**

Track Panel interface (Computer)

Track Panel (Mobile) interface

Simple to operate:

- 1 Read instructions and the HowTo section on our website. Turn it on.
- 2 On a smart-phone or computer, go to www.mytrackingpanel.com and enter the device's ID number. Your phone is now tracking it.
- 3 Attach tracker and/or connect a Hard-wire kit to 12/24Vdc.
- 4 To see a sample tracker, go to the address above and enter "Prime1" as Account Ref or Device ID.
- 5 Download free iPhone app (mytrackingapp) from the App Store or Android app (GPS2Find) from GooglePlay Store.
